

THE INS AND OUTS OF SAVING WATER

Outside
The Home

Inside
The Home

Planning
prioritize water + energy efficiency, such as placing plants for home

Restore
replace turf with native prairie and wildflower grasses.

Mulch
use organic mulches to lessen soil evaporation.

Care
avoid improper pruning/fertilizing to reduce landscape water usage.

Turn It Off
turn off water when washing dishes and brushing teeth.

Under 5
shower in five minutes or less.

Fill It Up
use full loads in your washing machine.

WaterSense
replace fixtures with WaterSense labeled products.
